

System Changes & Updates Summary

- **Single School Optimization:** Removed all multi-campus selection dropdowns, region configs, and currency select menus. The system is now dedicated entirely to serving a single school environment.
- **Company Logo & Branding:** Replaced the generic graduation cap icon with the stylized split Z logo framed inside a premium white square border. Color schemes updated to match the company colors (Deep Blue #0b4d8c and Bright Sky Blue #00a2e8).
- **On-Click Feature Locks:** Instead of hiding dashboard links for lower-tier plans, all modules are fully visible on the sidebar. When a user clicks a restricted link, a premium glassmorphic **Plan Upgrade Required** screen is displayed, prompting them to upgrade to Gold or Platinum.
- **Streamlined Dashboard Home:** Removed the generic "Quick Overview" list and static "Features" details cards to make the dashboard workspace cleaner and faster to navigate.
